

## Streets to Stream

The Vermillion River Watershed maintains the **Streets to Stream** interactive display that demonstrates how water picks up pollutants as it flows into storm drains. This 5-piece hands-on model answers questions about common sources of pollution and gives simple solutions on how we can all make a difference in keeping our local water bodies clean. All you need is a six-foot table.

### Trash

Lesson: Make sure recycling doesn't blow out of your recycling cart on the curb and seal trash bags to keep litter out of the street.

### Chemicals

Lesson: Keep your car regularly maintained so fluids won't leak into the street. Take used motor oil and other household chemicals to the [Dakota County Recycling Zone](#).

### Pet Waste

Lesson: Pick up pet waste and dispose of it in the trash or down the toilet.

### Yard Waste

Lesson: Keep leaves, grass, and fertilizer off the sidewalks and streets. Compost leaves and grass clippings or use them as mulch.

### Interested in learning more?

Streets to Stream is available for checkout. Please contact us to learn more about its availability. Pick it up from the Vermillion River Watershed Joint Powers Organization anytime between 8 a.m. and 4:30 p.m. Monday-Friday.

You can also arrange for a presentation. Contact us for more details.
